Commercial Pilot Certificate Single Engine (FAR Part 61)

Prerequisites: Private Pilot Certificate, Instrument Rating (Optional)

Any Commercial Pilot without instrument rating will have limitations placed on their Commercial Pilot Certificate.

Requirements: FAA Part 61 requires that an applicant for Commercial Pilot must have a total of 250 hours of flight time to include the following:

- * 100 hours in a powered aircraft of which 50 must be in an airplane
- * 100 hours of PIC time which must include 50 hours in an airplane and 50 hours of cross country time of which 10 hours must be in an airplane
- * 10 hours of instrument training of which 5 hours must be in a single engine airplane
- * 10 hours of training in a retractable airplane or a Technically Advanced Aircraft (TAA)
- * 2 hour day dual cross country flight of 100nm or more from the original departure point
- * 2 hour night dual cross country flight of 100nm or more from the original departure point
- * 3 hours in a single engine airplane with an instructor in preparation for the practical test
- * 10 hours of solo flight time in a single engine airplane or 10 hours of flight time performing the duties of PIC in a single engine airplane with an instructor

Please note: The pricing below requires that the above prerequisites and requirements have been met. Any of the above items that need to be accomplished, will add to the cost.
